Anna Zhernoklieieva

Senior / Lead Product Designer · Valencia, Spain · Open to remote / hybrid

annanik2112@gmail.com · LinkedIn · Portfolio

Summary

Product designer with 5+ years of experience shaping web and mobile products across fintech, healthcare, real estate, education and e-commerce. I combine end-to-end UX — research, flows, prototyping, design systems — with a background in economics and analytics, so I design with business metrics in mind. I have led a team of designers, set up design workflows and partnered closely with product, engineering and business analysts to ship complex features. Looking for a Senior / Lead role where I can own product areas and help grow a design team.

Experience

Product Designer, Valencia — Brain Rocket

Jul 2023 – Oct 2026

- Led a team of 3 designers: planned and distributed work, ran design reviews and kept quality and consistency across product areas.
- Owned design for new product features end to end, from concept to delivery, breaking complex requirements into shippable increments.
- Established design workflows and standards that sped up developer handoff, reduced design-related rework from development and kept design off the critical path for releases.
- Evolved the existing design system with new components and patterns to support new features and keep the product consistent.
- Partnered with product managers, developers and business analysts to define solutions and meet business goals.
- Guided developers through implementation and reviewed builds to ensure delivery quality.

UX/UI Designer, Kyiv — BN Digital (agency)

Mar 2021 – May 2023

- Delivered 15+ client projects — websites, web and mobile apps — across healthcare, real estate, education, fintech and other industries.
- Led discovery with stakeholders: gathered business requirements, ran competitor analysis and defined goals.
- Delivered wireframes, user flows and interactive prototypes, then handed off to development.
- Built style guides with components and states, speeding up developer handoff.
- Produced brand and marketing graphics: logos, banners, posters.

UX/UI Designer, Kharkiv — Freelance

Jul 2020 – Mar 2021

- Co-designed an e-commerce app for an Eastern-market client together with another designer.
- Created promotional product design and brand assets for the Vostorg supermarket chain.
- Designed digital materials for a charity organisation.

Economist, Analyst — Kharkiv City Council

Feb 2019 – Jul 2020

- Analysed city data and built forecasts and Power BI dashboards — the foundation of my data-driven approach to design.

Skills

- **Product & UX:** end-to-end product design, information architecture, user flows, CJM, wireframing, interactive prototyping, design systems, visual design for web and mobile.
- **Research:** in-depth and stakeholder interviews, user surveys, personas, competitor analysis.
- **Business:** requirements analysis, BPMN and business process diagrams, data analysis (Power BI).
- **Collaboration:** design workflow setup, cross-functional work with PM, engineering and BA, developer handoff and QA.
- **AI-assisted design:** using AI for research synthesis, UX writing, ideation and rapid prototyping; building working prototypes with AI to validate ideas before handoff.

Tools

Design: Figma, Illustrator, Photoshop, InVision, Miro, Notion, Jira, Trello, Keynote, BugHerd.

AI: Claude, ChatGPT, Figma AI, Midjourney, Lovable.

Education

- **Mobile Interfaces Advanced** — Projector Institute, 2026
- **Product Design** — Projector Institute, 2023
- **Inclusive Web Design** — Projector Institute, 2022
- **UX/UI Design** — Shendrikov Education, 2020
- **Project Management** — PM School, 2020
- **MSc in Economics** — V. N. Karazin Kharkiv National University, 2012–2018
